

Vixualizer™ Finder

Vixualizer Finder systems bring you the capability to set-up and manage communities networking for families, friends and companies.

With a fully web and software based add-on system the cost will be kept on a minimum by using already available mobile devices for the infrastructure.

The easy to set-up system brings you all data to a very low cost and provides to your fingertips the important tools to support your requirements to view & track persons or property.

Various options can provide you with development possibilities to create new applications and create more and more interesting functionality and business opportunities.
